PROFILE

Full Stack Developer with 2+ years of experience in designing, developing, and deploying scalable web applications using HTML, CSS, JavaScript, PHP Laravel, and MySQL. Strong expertise in front-end development, backend API development, and database management. Proficient in building RESTful APIs, optimizing application performance, and managing virtual machines and deployment environments. Experienced in version control (Git), debugging, and delivering secure, high-performance, and user-centric solutions aligned with modern web development standards.

EDUCATION

SIVET College University of Madras

Bachelor of Computer Applications - 2021

- CGPA: 8.1
- Completed coursework in Operating Systems, DBMS, Data Structures & Algorithms, and Machine Learning, with strong foundation in software development and problem-solving.

Presidency College

Master of Computer Applications – 2023

- CGPA: 8.2
- Developed strong foundation in full stack development, problem-solving, and system design

SKILLS

Programming Languages: PHP Laravel, python, MySQL.

Frontend Technologies: JavaScript, HTML, CSS, bootstrap.

Tools: MS Excel, Git, Github, visual Studio.

CERTIFICATIONS

- Web Development Training – Full Stack (JavaScript, PHP, MySQL)
- Data Analytics Job Simulation – Deloitte

EXPERIENCE

NPTEL – IIT MADRAS

Chennai, India

Junior Developer

Jan 2024 – Dec 2025

- Developed and maintained scalable full-stack web applications using JavaScript, PHP Laravel, and MySQL, ensuring high performance and responsive user interfaces.
- Collaborated with cross-functional teams including senior developers and team leads to design, develop, and deploy user-centric solutions following best development practices.
- Performed data analysis using MySQL and implemented database optimization techniques such as normalization, indexing, and data integrity to enhance performance and support decision-making.

PROJECTS

NPTEL: Website Development

- Developed a scalable full stack e-learning web application using JavaScript, PHP Laravel, and MySQL, featuring responsive UI, course management, video streaming, and personalized student dashboards.
- Designed and implemented RESTful APIs for seamless frontend-backend integration, enabling real-time notifications, dynamic content delivery, and efficient data handling.
- Built secure backend systems with Core PHP, implementing user authentication, database management, and optimization techniques to ensure data integrity, performance, and application security.
